BOBST

BOBST Training
Focused on your efficiency

Imagine driving your car while using only two gears. This is what you are doing if your presses are underutilized or running below their capabilities.

In global market, competitiveness, extreme quality and total adaptability are daily requirements.

BOBST expert training

At BOBST, we are not just committed to providing the most efficient and innovative presses on the market.

We're committed to helping you achieve the maximum amount of benefits from them.

Shift into high gear and let BOBST maximize your equipment's productivity thanks to its expertise offers. As they develop their **knowledge, skills** and **experience**, they will have a better understanding of your equipment and be able to use it to its full potential.

Your competitiveness is driven by your employees

Our training programs provide courses for different roles, from beginner to experienced level.

- **Press Operators**
- **Maintenance Operators**
- **Press Managers**
- **Process Engineers**

BOBST Training Academy

Benefits for you and your company

Investing in people has a far-reaching impact

- Better trained and **more motivated** personnel
- Better **knowledge** allows for equipment to perform at its maximum
- **Fewer errors**
- Faster **problem solution**
- **Increased productivity**
- Press **failure prevention**
- **Downtime reduction**
- Process technology **skills**

Inline flexo process basic principles

Maximum participation: 4 persons

This training is dedicated to explain basic principles of Inline flexo printing. The course gives attendees an introduction on **critical aspects** of this process: **materials** and **substrates, prepress** phase and **printing.** In addition, tips and tricks to get your operation smoother.

ORGANIZATION

Duration	• 3 days (24 hours)
Place	• At customer site • In classroom and on the press
Included services	• Documentation • Hours of training • Hotel • Daily expenses
Excluded	• Hours and travel expenses • Local transport

COURSE CONTENT

- Safety overview
- Press general overview
- Material description
- Prepress phase
- Print unit set up
- Tension control setting
- Printing test
- Tips & tricks

AVAILABLE FOR

- Inline flexo
- All-in-One

Inline flexo press maintenance

Maximum participation: 4 persons

Regular, accurate and professional maintenance is necessary for your press to work reliably and profitably for many years. Our maintenance course qualifies your specialists to keep the press in perfect condition throughout its entire lifecycle, increasing **press availability, enhancing production quality** and **extending equipment's lifespan.**

ORGANIZATION	
Duration	• 3 days (24 hours)
Place	• At customer site • In classroom and on the press
Included services	• Documentation • Hours of training • Hotel • Daily expenses
Excluded	• Hours and travel expenses • Local transport

COURSE CONTENT

- Safety on the press
- Main devices calibration
- Basic troubleshooting
- Press cleaning procedure
- Spare part request procedures

Workflow optimization

Maximum participation: 4 persons

This training is dedicated to give the best support in process optimization and workflow, both prepress and production phases. As a result, this course qualifies the participants to take advantage of **press full capacity, enhancing printing quality** and **increasing press productivity.**

ORGANIZATION	
Duration	• 3 days (24 hours)
Place	• At customer site • In classroom and on the press
Included services	• Documentation • Hours of training • Hotel • Daily expenses
Excluded	• Hours and travel expenses • Local transport

COURSE CONTENT

- Workstation organization
- Job list management
- Production optimization using press functions and automatisms
- Prepress consultancy for the standardization of graphics and jobs, to reduce waste and simplify job reproducibility

AVAILABLE FOR

- Inline flexo
- Digital & All-in-One

Digital process training for Flexo Operators

Maximum participation: 4 persons

This training is dedicated to introduce the **“analogue technology”** operators to digital printing. An overview of what can be managed from the operator to get the best print quality, preventing or recognizing printing problems and possible troubleshooting. As a result, this course qualifies the participants to take advantage of **press full capacity, enhancing printing quality** and **increasing press productivity.**

ORGANIZATION

Duration	• 2 days (16 hours)
Place	• At customer site • In classroom and on the press
Included services	• Documentation • Hours of training • Hotel • Daily expenses
Excluded	• Hours and travel expenses • Local transport

COURSE CONTENT

- Safety overview
- Inkjet technology
- DPU - Digital Print Unit
- FLEXO unit
- Diecut Rotary and/or semirotary
- HMI
- ACCUCHECK
- Digital process
- Flexo process
- Basic Maintenance
- Print trials
- Tip & tricks

Digital Front End training

Maximum participation: 10 persons

This training is dedicated to explain how to use **BOBST Digital Front End** on the press. As a result, this course qualifies the participants to take advantage of **press full capacity, enhancing printing quality** and **increasing press productivity.**

ORGANIZATION		COURSE CONTENT
Duration	• 1 day (8 hours)	• DFE SW installation and setup • DFE basic operations • Registration mark • VDP • File output ripping
Place	• On-line by Microsoft Teams	
Included services	• Documentation • Hours of training	

AVAILABLE FOR

– Digital & All-in-One

LANGUAGES

– English
– Italian
– Other language required (interpreter cost not included)

ADDRESSED TO

– Press Operators
– Press Managers
– Process Engineers

BOBST ACCUCHECK - video inspection and calibration

Maximum participation: 4 persons

This training provides operators with comprehensive knowledge about video inspection and Digital Printing Unit calibration. As a result, this course qualifies the participants to take advantage of **press full capacity, enhancing printing quality** and **increasing press productivity.**

ORGANIZATION	
Duration	• 2 days (16 hours)
Place	• At customer site • In classroom and on the press
Included services	• Documentation • Hours of training • Hotel • Daily expenses
Excluded	• Hours and travel expenses • Local transport

COURSE CONTENT

- General overview of BOBST ACCUCHECK
- BOBST ACCUCHECK HMI navigation description
- DPU calibration settings
- DPU calibration test
- BOBST ACCUCHECK for Video inspection
- Video inspection settings
- Printing trials for DPU calibration
- Printing trials for video inspection
