

Packing without stress

FOLDING-GLUING | PERIPHERALS | FOLDING CARTON

HANDYPACK GT

At a glance

Empowering flexibility

An unrivalled multi-purpose tool, **HANDYPACK GT** offers a proven fast return on investment. This packer increases the productivity of your folder-glueers thanks to how easy it makes carton collection, even with few staff at delivery. Compact and user-friendly, **HANDYPACK GT** runs almost any type of box, presenting them to your operators in the best position for hand packing.

Creating value

BOBST innovations
are driven by customer
and brand owner needs.

> READ MORE

Functional packaging and protection

Protecting the goods in a clever way is required. Single serve, multi-packs, re-sealable, see-through.

Customization, versioning, personalization

Packaging needs to reach all segments of the society taking almost any shape and size from very short runs to reprint and long runs. All with the best color consistency.

E-commerce & omni-channels

Multiple retail formats set new requirements for packaging. On-demand production, timely delivery across multiple designs, shapes and sizes.

Sustainability

Packaging production needs to reduce its environmental carbon footprint – less waste across the entire supply chain. New and thinner substrates. Recycling and re-use are the new rules.

Faster time-to-market

A growing number of products need to reach consumers faster. Product lifetime is shorter. From product design to the consumer experience, the supply chain has to be more agile.

Benefits and features 1 – 3

Packing

- Allows adjustment of the box layer thickness to prevent damage to fragile cartons
- Perfect formation of box rows thanks to the synchronization of the conveyor speed with the arrival of the box layer
- Batch collection of counted boxes when required

Handling

- Consists of two modules for more flexibility
- The collecting table may be operated directly in-line with the machine delivery
- Requires the setting of only a few elements for faster set-up and changeover
- Caster-mounted, allowing easy displacement

Ergonomics

- Stress-free packing thanks to a long working area and the slowing of the box layers on the collecting table
- Adjustable height collection conveyor for more convenience
- Small footprint

Maintaining excellence

Expert services for all your equipment.
Improve your processes, boost your productivity and enhance your expertise with a complete range of services from BOBST.

Maintenance Plus

- Scheduled maintenance with BOBST certified technicians
- Preventative intervention, maximizing machine uptime
- Optimum performance over the equipment lifetime

Digital age manufacturing happening with BOBST Connect

BOBST Connect is an end-to-end, user-centric digital platform that enhances and increases your packaging productivity. It's designed to help you make the most of the data your machine generates, improving efficiency across your value chain.

As well as exceptional data insights, BOBST Connect helps to orchestrate and improve your whole production process, from your PDF to the finished product and quality report. It brings data and digital services together in one fully connected platform, with machine insights and expertise built in.

All of this is available to you as part of BOBST Connect Essential, the first subscription level that you receive when you purchase a new BOBST machine.

Performance analysis

- Production insights, including interaction of OEE components
- Identify and eliminate performance gaps

Accurate reporting

- Meaningful insights on OEE and downtime
- Accurately measure target speed and quality losses
- Trend analysis over time

Progress indicator

- Highlights extensive production deviations
- Empowers timely interventions

Remote assistance

- Priority access to technical specialists
- Video with Augmented Reality expert support based on real-time data
- Available 24/7 (optional)

Shift management

- Optimize planning time
- Deliver overall resource efficiency
